

other SPORTS ATTACK training equipment

BASEBALL/SOFTBALL ATTACK

A unique three-wheel baseball or softball delivery system allows the hitter to never lose sight of the ball throughout the throwing process, giving a sense of timing and rhythm.

TENNIS ATTACK

Our professional, school or individual training tool helps you deliver speeds of up to 130MPH and simulate any shot or serve in the game.

SPORTS ATTACK volleyball training machines

The **SPORTS ATTACK** drill machines provide repetitive training and volleyball match simulation for all ages and skill levels.

The versatility of the **SPORTS ATTACK** equipment gives you the tool to create drills for every phase of the game. This equipment delivers the ball under any spin, speed or trajectory, duplicating match conditions and challenging players to perform in progressively more difficult circumstances. Accuracy and repeatability are assured in every drill.

Adjustable Spin and Speed

A full range of spins in any direction is offered by all **SPORTS ATTACK** machines. Throwing heads deliver both sharp topspins and breaking floaters to simulate match situations, while speed settings mimic the softest of sets to the fastest of jump serves.

Practice the way you PLAY

SERVE

The Attack and Attack II offer multiple height ball release points. Each machine can be quickly lowered for setting or easily raised to serving or spiking heights. Horizontal throwing head movement allows serves with accuracy to all areas on the court.

The machine can also be easily rolled along the baseline to replicate all serves.

Consistency increases repetition and improves practice time efficiency. All Attack machines can be safely operated by any player, student or parent, freeing the coach to focus on instant feedback and teaching proper passing skills. No more yelling across the court.

The **SPORTS ATTACK** training equipment is currently used by more than half of all Division I college teams and many high schools across the country. It is recognized as the most accurate serve, set, spike simulation trainer available to coaches today.

SET

Rapid reps with varying intervals will meet the requirements of any hitting drill. Accurate and consistent soft sets with no spin are provided at any angle and height. All machines can be set to release the ball from a realistic 5 feet, not from floor level like other machines.

Equipment	ATTACK	ATTACK II	SKILL ATTACK
Features	The Professional Volleyball Machine	The Team Volleyball Machine	The Individual Practice Machine
Ball Release Point Range	5' to 9'-6"	5' to 8'-6"	5' only
Serving Speed	70 m.p.h.	60 m.p.h.	40 m.p.h.
Setting	Yes	Yes	Yes
Spiking	Over men's & women's net	Over women's net	From same side of net only

SPIKE

Actual hitting angles from over the net and top speeds make real game conditions a part of every digging drill. Repetitive spikes to the left or right force players to learn to move their feet, extending their range.
