

## UPRIGHT REJUVENATION

Sports Imports is committed to redefining excellence. That's why we developed the **Volleyball Upright Rejuvenation Program®** for our customers.

We understand normal, everyday use can cause even the most high-quality product to look worn. This unique program helps your uprights look and perform like new again. Let Sports Imports rejuvenate your older equipment with no hassle and minimal cost.

## S P O R T S I M P O R T S Senoh volleyball

**Leader. #1**  
**unequaled. 1**  
**The best.**

### Senoh volleyball equipment:

- Used in every Olympic volleyball competition except the boycotted Moscow Games
- Preferred by 90% of Division 1 college programs
- Only system ever endorsed by AVCA and FIVB
- Featured in more than 10,000 gyms and arenas across America

Sports Imports is the exclusive distributor of Senoh volleyball equipment. We provide on-site advice on court design and lifetime support.

**REJUVENATION**

## before

- missing parts
- scratched paint
- wear and tear

## after

- new parts
- fresh paint
- great new look

# UPRIGHT REJUVENATION

### Sports Imports will:

- Strip the old paint and repaint the upright
- Give the upper section a zinc plating bath to make it shine like new
- Repair bent hooks and replace the following removable parts:
  - rubber end plug on the bottom of the upright
  - tightener bolts
  - stop pin and chain
  - pulley wheel

The Rejuvenation process takes an estimated six to eight weeks and can be done at any time during the year.

**Sports Imports** currently offers this program for the Senoh DE11 and DE60 Uprights. Not sure which upright you have? These uprights:

- are painted red, except for our very first uprights sold in the late 1970s, which are battleship gray. However, keep in mind that your organization may have painted them another color at some point in their history.
- are three inches in diameter, made of steel and use a pin-stop height adjustment mechanism.
- have 11 pre-drilled holes in the upper telescopic section.

For now, this program does not apply to the DE10 and AL7 uprights.

### Guarantee and Shipping

The rejuvenated upright(s) will carry the same lifetime warranty that we provide on new uprights. We will arrange for the shipping of the upright(s) to and from your facility. For an additional cost, Sports Imports can expedite the 6–8 week turnaround time with an “express service”. Please call us for additional details.

“We are the only company that can offer this kind of program because of the simple design and top quality materials used in Senoh uprights. Rejuvenation will maximize the high-quality appearance of previously-purchased uprights.”

- Brad Underwood  
President
